# FIT3143 Tutorial Week 8

Lecturers: ABM Russel (MU Australia) and Vishnu Monn (MU Malaysia)

# FAULTS AND CONCENSUS

## OBJECTIVES

- The purpose of this tutorial is to introduce Parallel computing classes
- Understand Faults, Distributed consensus, Security

## TOPICS

1. Describe how masking tolerance preserves both safety and liveness properties.

2. Discuss how distributed consensus is a crucial piece in an algorithm we have discussed so far this semester.
