FIT3143 Tutorial Week 7

Lecturers: ABM Russel (MU Australia) and Vishnu Monn (MU Malaysia)

TRANSACTIONS AND CONCURRENCY

OBJECTIVES

- The purpose of this tutorial is to introduce the concept of Distributed transactions and Concurrency

TOPICS

1. Discuss the concept of bully algorithm.
2. When or why might you use an election algorithm?
3. Fundamentally, why do we need distributed transaction protocols?
4. Explain the subtle difference between concurrency and parallelism.
